Enabled by
Quality Health
Information**

About IFHIMA

Pendirian

IFHIMA was established in 1968 as a forum to bring together national organizations committed to improvement in the use of health records in their countries.

The founding organizations recognized the need for an international organization to serve as a forum for the exchange of information relating to health records, health information management and information technology.

Mission

IFHIMA represents and advances the global Health Information Management (HIM) Profession.

THE PURPOSES OF IFHIMA

- Promote the development and use of health records/information management in all countries
- Advance the development and use of international health records/information management standards
- Provide for the exchange of information on health records/information management education requirements and training programs
- Provide opportunities for education and communication between persons working in the field of health records/information management in all countries
- Promote the use of technology and the electronic health records
